Lotte Berk isn't just a technique it is a multi-layered experience involving not just your body but also your spirit.

Lisa Mozo has brilliantly captured that intrinsic essence.

I am extremely proud to have trained her in my mother's brilliant technique. Her elegance and poise combined with her exquisite portrayal of Lotte's work. Lisa trained with me in 2016 and I quickly recognized her special qualities. I saw her breathe life back into mother's technique. There was warmth, laughter and joy which I feel has to be a vital part of a Lotte Berk class.

I am thrilled to have Lisa be a representative of Lotte Berk, well done.

With great respect.
